mona
MONOBLOCK HOTEL SERIES

The Mona Series consists of a user-friendly, elegant frameless glass design and intuitive operation, with capacitive buttons through minimalist icons. With its touch operated design and minimalist icons, it is suitable to be a part of your living space with its various color options.

Touch Operated

Glass Surface

Switch, Thermostat and Socket Together

Frameless, minimalist design

Icon Options

Away, comfort, night and protection modes

Independent programmable buttons

Various color option

RGB LED option

Up to more than 5 combined monoblock modules

Hundreds of different combinations

Hundreds of RAL surface colors...

Dimensions (mm)	a	b	h
Single	90	12	100
Binary	161	12	100
Triple	232	12	100
Quadruple	303	12	100
Quintet	374	12	100

Card Holder
Up to 6 buttons

- Compatible with Mifare 13.56 MHz card
- Contactless reading for RFID Card information
- Avoids mechanical wear and card deformation
- Detection distance up to 50 mm

Thermostat
Up to 6 buttons

- Temperature adjustment on display
- Integrated temperature sensor (°C/°F)
- Fan speed adjustment (1, 2, 3, Auto)
- Fully automatic function mode (Heat - Cool transition)
- Control flexibility for all HVAC units including VRF-VRV and AC
- PI proportional, PI PWM, Hysteresis, Fan coil, Split unit controls

Switch
Up to 12 buttons

Mona switches continue to add value to your space with frameless design. Mona offers a unique user experience and intuitive operation with its touch design and minimalist icons. There are hundreds of combination options with thermostats, switches and sockets.

▶ DND MUR

The Mona series DND MUR display, where you can easily see whether your guests are in the room, consists of a glass touch screen and includes room number, hotel logo, Laundry, DND, MUR indicators and doorbell button.

IP65 Option

▶ Welcome Panel

When entering or leaving your room, desired scenarios can be realized with a single touch, and you can experience safety and comfort together thanks to the RF-ID card holder you use at the entrances. You can combine switches and thermostats with your energy saver. Guests will control many things through one single monoblock panel.

▶ Bedside Panel

Mona Serie offers %100 customizable, unique panels. You can create your own bedside panel through the configurator.

Hundreds of different combinations

Up to more than 5 combined monoblock modules

▶ Socket

The Mona serie offers glass surface, minimalist design, wide collection up to 5 gang, wide range of colors. BS standard, European standard and Modular standard sockets are compatible with Mona series.

Modular European Sockets

British Sockets

Modular British Sockets

Modular Italian Sockets

European Sockets

Rosa thermostats are designed for the needs of modern buildings. Rosa's intuitive design allows all ages to control their living space easily. New generation frameless design fits architects' expectation and getting their compliments.

Touch Operated

Glass Surface

Switch, Thermostat and Socket Together

Frameless, minimalist design

Icon Options

Away, comfort, night and protection modes

Additional heating-cooling control

Various color option

Fully automatic heating-cooling transition

Optional in-built temperature sensor for switches

Feedback and Navigation LEDs

Independent, programmable buttons

Rosa Metal Series
Thermostat Color Options

Rosa Metal Series
Switch Color Options

Thermostat
Up to 2 fold

Thermostat and switching control from one point with Rosa Thermostat

Switch
Up to 3 fold

Lighting, shutter/blind, scene call, speaker and DND/MUR control with customizable Rosa keypads.

Socket
Up to 5 gang

Various color options in UK, EU and universal standards.

rosa crystal

The Rosa Crystal switch and thermostat series, which has the same features as the mt

Hundreds of RAL surface colors...

rosa solid

Rosa's intuitive design allows you to easily control your habitats. Elegant feather-touch switches with backlight logos! Rosa Solid touch switches which has the same features as the other Rosa series ones adorn hotel rooms, homes and commercial buildings.

Hundreds of RAL surface colors...

rosa pictus

Rosa Pictus metal switch and thermostats is a different feeling version of quality. Sleek and painted surface perfectly fits to different type of interior designs. Thanks to wide range of colors and unique features, Rosa Pictus products have become one of our most popular product groups in a short time.

Painted, unbrushed metal surface...

Socket

The Mona serie offers glass surface, minimalist design, wide collection up to 5 gang, wide range of colors. BS standard, European standard and Modular standard sockets are compatible with Mona series.

Single Socket - Black Glass

Quadruple Socket+Socket+TV/SAT - White Glass

Shutter-Blind Wing

Away - Stay

Assembly Detail

Important note!

The optimum distance between the two thermostats should be at least **120 mm** from center to center.

Thermostat Up to 4 fold

Oria thermostats can perform all needed operations with a single touch. Programmable buttons on Oria thermostats can control comfort and energy saving needs such as lighting, shutter/blind, scene call, speakers and panic button for you.

Switch Up to 6 fold

The new generation of Oria switches adds a simple and elegant touch to the world of users while fulfilling unlimited needs with its design. With rich collection options expandable to 12 buttons in a single frame, enjoy one-point management of on-site lighting, heating-cooling, shutter-blind, speakers, scene call and panic buttons controls.

Socket Up to 5 gang

As the supplementary item for the new generation of thermostat and switch series, Oria power outlets reflect the integrity of your space.

Technical Specifications

Protection type	IP 20	EN 60529
Safety class	II	EN 61140
Supply	Voltage Range	21-30V DC, Supply from EIB/KNX line
	Supply voltage	20 mA
	Power consumption	20 mA x 30V
Button operation life	100.000	
Temperature	Operating	-5° C + 45° C
	Storage	-25° C + 55° C
	Transport	-25° C + 70° C
CE	In accordance with EMC guideline and low voltage regulation

System Topology

Sensors & Panel Devices

▶ PD100 / MD100 *Movement / Presence Sensor*

Surface mounting and flush mounting option
2-point fixed-light control
Independent HVAC duct
Master / Slave Fully / Semi-automatic operation modes
Motion detection at 2.5 m mounting height, 9 m diameter

Constant
Light Control

▶ CD100 *Corridor Sensor*

Different levels of brightness can be arranged for the states of; "Movement", "After Movement", and "No Movement". It can operate in parallel connection with other sensors either on standalone or master-slave basis depending on application requirements

CD100 20x6m
CD High Bay 22x12m
Coverage Area

▶ HD100 *High Bay Sensor*

Constant light control
Fully / Semi automatic lighting control
Independent HVAC duct
Lighting can be set to different brightness levels

25m x 14m
Coverage Area

▶ PSU320 / PSU640 *Power Supply*

EAE KNX Power Supply is available in 320 mA and 640 mA versions
Input voltage range 150-275V AC, 50 60Hz
Output 1: KNX bus power with an integrated choke. (30VDC, SELV)
Output 2: Additional voltage output. (30VDC, SELV)
Short-circuit and overload protected outputs
LED indicators for Power, Overload and Reset status

Additional
30V DC Output

▶ IPR100 / IPI100 *IP Router / IP Interface*

4-6 independent channels Manual operation feature
Up to 1800W with 6 parallel channels.
Up to 1200W with 4 parallel channels.
Configurable behaviour after voltage return, voltage failure or ETS download.

4 Simultaneous
KNXnet / IP
Connections

▶ LC100 *Line Coupler*

Built-in filter tables for group-oriented communication
Support of long messages up to 240 bytes APDU length
Galvanic isolation between KNX lines
Flexibility to be used as line coupler, area coupler or as a backbone coupler
Does not require an additional power supply

Temporary disabling
of routing filter
via button

▶ RCU *Room Control Unit*

(RCU2018, RCU2000, RCU1616, RCU1600, RCU0808, RCU0800)

Special design for different room layouts
On/Off, HVAC, Shutter/Blind control.
20x16A relay output
Switching resistive and inductive loads
18 independent input channels
7 functions for each channel (staircase, external/internal logic, priority, threshold, sweeping functions and transaction time)

20x16A Outputs
+
18 Inputs

▶ SW104 / SW108 *Switch Actuator*

4/8 independent channels
Manual control via device on each channel
7 functions (staircase, external/internal logic, priority, threshold, sweeping functions and transaction time) can be defined for each channel separately
Does not require external power supply

500A Inrush
Current Switching

▶ FCA100 *Fancoil Actuator*

Special design for many fancoil and valve types
It has proportional outputs (valve / fan speed)
16A auxiliary output for additional heating / cooling

One actuator for
all types of fan
coil units and valves

▶ DA100 *DALI Gateway*

64 Lighting Stage
16 Group Control
DA100 can use up to 8 DALI sensors
Error status of DALI devices, device-based and group-based, with different KNX communication objects
Intersecting DALI groups

Emergency
Lighting
Monitoring

Sensors & Panel Devices

▶ KMG103 *KNX Modbus Gateway*

Built in 320mA / 640mA power supply
 Device can be used to control and monitor KNX installations via SCADA visualization software.
 IP address of device can be given by DHCP server or by manual configuration.
 Device includes logic controller that enables room energy saver system without using card holder.
 Saving the configurations of guests and calling configured scenarios.
 Device has 3 dry contact inputs for ; Doors, Windows and Presence

Occupancy based energy saver without card holder

▶ UD104 / UD106 *Universal Dimmer*

4-6 independent channels Manual operation feature
 Up to 1800W with 6 parallel channels.
 Up to 1200W with 4 parallel channels.
 Configurable behaviour after voltage return, voltage failure or ETS download.

4 Parallel Channels
 6 Parallel Channels

▶ SD110 *1-10V/0-10V Dimming Actuator*

10 independent channels.
 FollowinWWWWWConfigurable behaviour after voltage return, voltage failure or ETS download

10 x 16A
 1-10V
 0-10V

▶ MIO1616 *Multi Input/Output*

LEDs and buttons on the KNX panel can be used with a single device
 Design does not require external supply source

16 Inputs
 16 Outputs

▶ UI108 *Universal Interface*

8 functional input channels
 Easy connection with color connection cables
 6 different functions (switching, dimming, curtain control, value/priority info, scene control, pulse counter)

6 Different Operating Modes
